

Verity is Designed for Everyone

Verity technology is equipped with a full suite of accessibility features to ensure every voter can vote privately and independently.

Mark + Print + Verify

Intuitive, touchscreen ballot marking device (BMD) with a voter verifiable paper summary.

Absolute Transparency – Voters verify a printed, full-size, human-readable ballot summary before casting. Verity never encodes voter selections in a barcode for tabulation.

Building a Better Paper Trail

No voter choices
in barcodes

Bilingual ballot
summary

Full size ballot for a
better voter experience
and cost savings

100%
Voter
Verifiable
